

## VISION

To foster a culture of excellence, innovation, and accountability in academic and administrative practices, thereby enhancing the overall quality of education and institutional performance. The IQAC envisions transforming the college into a center of holistic development, research, and value-based education that meets global standards and serves the community effectively.

## MISSION

To enhance the quality of education through continuous improvement, stakeholder participation, innovation, and ethical practices, while striving for academic excellence and holistic development.

## OBJECTIVES OF IQAC

- To establish a system for conscious, consistent, and catalytic actions aimed at improving the academic and administrative performance of the institution.
- To encourage measures that enhances institutional functioning by internalizing a culture of quality and institutionalizing best practices.

## FUNCTIONS OF IQAC

- Establishment and implementation of quality benchmarks and parameters for different academic and administrative functions within the institution.
- Promoting a learner-centric environment that supports quality education and encourages faculty development to acquire relevant knowledge and technology for an interactive teaching and learning process.
- Arrangements to gather feedback from students, parents, and other stakeholders regarding quality-related processes within the institution.
- Sharing and spreading information related to various quality parameters in higher education.
- Conducting inter-institutional and intra-institutional workshops and seminars on quality-related topics and encouraging the formation of quality circles.
- Recording and documenting various programs and activities aimed at improving quality within the institution.
- Developing and maintaining an institutional database through a Management Information System (MIS) to support and enhance institutional quality.
- Fostering a culture of quality throughout the institution.
- Preparing the Annual Quality Assurance Report (AQAR) in accordance with NAAC guidelines and parameters, and submitting it to NAAC.
